|-------------|--|-------------------------------------|---|
| TIME        | <b>Planning for Biomass Energy Development</b>   |                                     |   |
| 8:00 - 8:30 | <b>Registration - Lobby</b>  | <b>Continental breakfast buffet</b> |   |
| 8:30        | <b>Opening and Welcome</b> – Forum logistics, agenda, forum survey                                   | Stephen Kaffka                      | California Biomass Collaboration                      |
| 8:40        | <b>KEYNOTE: Developing Biomass Energy in California</b>  | Commissioner James Boyd             | California Energy Commission                          |
| 9:00        | <b>SESSION 1 Bioenergy Interagency Working Group - Revisiting California's Bioenergy Action Plan</b> |                                     |   |
|             | <b>Agency Panel: Key Agency Plans &amp; Actions</b>  | <b>Moderator: Bryan Jenkins</b>     |   |
|             | <b>Supporting Digester Project Development</b>   |                                     |   |
|             | Programmatic EIR for Dairy Digesters   | <i>To be announced</i>              | Central Valley Regional Water Quality Control Board   |
|             | Programmatic EIR for Anaerobic Digesters   | Ken Decio                           | CalRecycles   |
| 9:40        | <b>Sustainable Forest Practices and Fuels</b>  |                                     |   |
|             | Forestry Practices and the State's GHG Goals   | Robert Schneider                    | California Department of Forestry and Fire Protection |
|             | Sustainable Sourcing for Biomass Fuels   | Bill Kinney                         | California Energy Commission                          |
| 10:20       | <b>Biomass Action Plan</b>   |                                     |   |
|             | Bioenergy Action Plan  | John Nuffer                         | California Energy Commission                          |
| 10:40       | Public Discussion  | Bryan Jenkins                       | UCD-Energy Institute                                  |
| 11:00       | <b>BREAK</b>   |                                     |   |
| 11:15       | <b>SESSION 2 - Sustainability Standards and Biomass Projects</b>                                     |                                     |   |
|             | A Brief History of Sustainability  | Stephen Kaffka                      | UCD Plant & Environmental Sciences                    |
|             | Overview of Life Cycle Assessment  | Alissa Kendall                      | UCD Civil and Environmental Engineering               |
| 12:00- 1:15 | <b>LUNCH - Conference Rooms A&amp;B</b>  |                                     |   |
| 1:15        | <b>California's Biomass Standards</b>  | <b>Moderator: Steve Kaffka-CBC</b>  |   |
|             | AB 118 Program and Standards   | Jim McKinney                        | California Energy Commission                          |
|             | Sustainability Standards for the LCFS  | Mike Waugh                          | California Air Resources Board                        |
| 1:45        | <b>National &amp; International Standards</b>  |                                     |   |
|             | Council on Sustainable Biomass Production Sustainability Standards                                   | John Heissenbuttel                  | Council on Sustainable Biomass Production             |
|             | International Standards  | Sonia Yeh                           | UCD Institute for Transportation Studies              |
|             | Sustainability Standards and Certification   | Jeff De Lott                        | Protected Harvest                                     |
| 2:45        | <b>Private Standards/Certification Programs</b>  | <b>Moderator: Steve Shaffer CBC</b> |   |
|             | User-developed Standards and Certification   | Cliff Ohmart                        | Lodi-Woodbridge Wine Growers                          |
|             | Specialty Crop Standards   | Hank Giclas                         | Western Growers Association                           |
|             | Organic Standards  | Claudia Reid                        | California Coalition of Organic Farmers               |
|             | Environmental Perspectives on Sustainability Standards   | Debbie Hammel                       | National Resource Defense Council                     |
| 3:45        | <b>BREAK</b>   |                                     |   |
| 4:00        | <b>PANEL: Industry Perspectives on Standards and Certification</b>                                   | <b>Moderator: Cynthia Cory</b>      |   |
|             |  | Cathy Reheis-Boyd                   | Western States Petroleum Association                  |
|             |  | Christopher Guay                    | Community Biofuels                                    |
|             |  | Neil Koehler                        | Pacific Ethanol                                       |
| 4:45        | <b>Wrap-up</b>   | Stephen Kaffka                      | CBC   |
| 5:00 - 7:30 | <b>RECEPTION - Conference Center Lobby and Patio</b>   |                                     |   |

| TUES        | <b>7th Annual Forum of the California Biomass Collaborative<br/>May 10- 11 2010</b>                                  |                                     |  |
|-------------|--|-------------------------------------|--|
| TIME        | <b>Managing Urban-Derived Biomass</b>  |                                     |  |
| 8:00 - 8:30 | <b>Registration - Lobby</b>  | <b>Continental breakfast buffet</b> |  |
| 8:30        | <b>Opening and Welcome</b> – Forum logistics, agenda, forum survey   | Stephen Kaffka                      | California Biomass Collaborative                 |
| 8:45        | <b>SESSION 3 - Alternative Uses for Urban-derived Biomass - integrating zero-waste and renewable energy policies</b> |                                     |  |
|             | <b>Moderator:</b> Clark Williams   |                                     |  |
|             | Urban Biomass Utilization  | Mark Leary                          | CalRecycles                                      |
|             | Renewable Portfolio Standard   | Anthony Eggert                      | California Energy Commission                     |
|             | California Low Carbon Fuel Standard  | Michelle Werner                     | California Air Resources Board                   |
|             | AB 222: Needed Statutory Reforms   | Kay Martin                          | BioEnergy Producers Association                  |
|             | <b>Panel Discussion, Q&amp;A</b>   | All                                 |  |
| 10:25       | <b>BREAK</b>   |                                     |  |
| 10:40       | <b>SESSION 4 - Jurisdiction-Sponsored Deployment of Urban Biomass-Conversion-Technology in California</b>            |                                     |  |
|             | <b>Moderator:</b> Jacques Franco   |                                     |  |
|             | City of San Jose: Zero Waste Strategies & Case Studies   | Michele Young                       | City of San Jose                                 |
|             | Refuse to Resource, a Municipal Framework for a Future without Landfills   | Patrick Mathews                     | Salinas Valley Waste Management Authority        |
|             | Southern California Conversion Technology Demonstration Project: An update   | Coby Skye                           | Los Angeles County                               |
|             | <b>Panel Discussion, Q&amp;A</b>   | All                                 |  |
| 12:00- 1:15 | <b>LUNCH - Conference Rooms A &amp; B</b>  |                                     |  |
| 1:15        | <b>SESSION 5 - Private Deployment of Urban Biomass-Conversion-Technology in California</b>                           |                                     |  |
|             | <b>Moderator:</b> Fernando Berton  |                                     |  |
|             | Anaerobic Digestion and the Path to Zero Waste   | Paul Relis                          | CR&R Inc and UC Santa Barbara                    |
|             | Waste-to-Fuels: Commercializing the Best Low-Carbon-Fuel Pathway for California                                      | Ted Kniesche                        | Fulcrum  |
|             | Extracting Value from Organics   | Paul Sellew                         | Harvest Power                                    |
|             | Real Energy Biogas West: In-City and On-Farm Projects  | Kevin Best                          | Real Energy                                      |
|             | <b>Panel Discussion, Q&amp;A</b>   | All                                 |  |
| 3:10        | <b>BREAK</b>   |                                     |  |
| 3:25        | <b>Session 6 - Financing Urban Biomass-Conversion-Technology</b>   |                                     |  |
|             | <b>Moderator:</b> Stephen Kaffka   |                                     |  |
|             | Alternative & Renewable Fuel & Vehicle Program: Investment plan & Funding opportunities                              | <i>Jim McKinney, Invited</i>        | California Energy Commission                     |
|             | Project Funding Opportunities  | <i>Ari, Elden, Invited</i>          | Kennedy Jenks, Consultants                       |
|             | Tax Exempt Bond Project Financing  | Michael Papanian                    | California Pollution Control Financing Authority |
| 4:25        | <b>WRAP UP</b>   |                                     | <b>Stephen Kaffka</b>                            |
